

## Public Meeting 7pm Wednesday 29th February Quaker House, Mutley Plain

**The US and the European powers** have introduced sanctions against Iran—dropping any pretence that they are not targeting ordinary Iranians. Sanctions are sucking the life out of Iran's social movements for democratic change and social justice. **Meanwhile, the continuing military threats** push Iran's ruling elite towards militarisation and make life harder for pro-democracy activists. To justify war the Western media treats speculation about Iran developing nuclear weapons as fact, and portrays the Iranian regime as an “existential threat” to Israel. Nuclear-armed Israel has regularly accused Iran of being just “a few years away from nuclear weapons” since 1992. But in 2007 and again in 2011, all 16 US intelligence organisations reported that Iran was not working on the militarisation of its nuclear programme. **Even with nuclear weapons** Iran would not be a match for Israel, which already has 100 nuclear warheads. A war against Iran will not only devastate millions of lives in Iran. It will also set back the democratic movements for decades and strengthen the grip of Western powers and their allies.

With talk of Israel launching an attack on Iran before June, it is urgent that we keep build the widest campaign possible.

**With Mike Lyons, Stop the War ex-soldier**  
**Mehrnaz Shahabi, Iranian Stop the War Activist**  
**Tony Staunton, CND National Council**

**Saturday 25 February:** ‘Don’t Attack Iran’ Petition stall, Sundial, Armada Way, Plymouth 12-2pm  
**Saturday 3rd March:** 10 - 5pm, Saturday March 3rd, University of London Union, Malet Street , London WC1
